## How to Edit a Ticket

## Questions & Answers

### I used the Gear Icon to change the number of Tickets in the Cart for Lotto Games, do the tickets have the same play numbers?

Yes, this is partially correct. Number of Tickets from the Gear Icon for Lotto Games will create Ticket multiples with the lines of play identical on every Ticket.

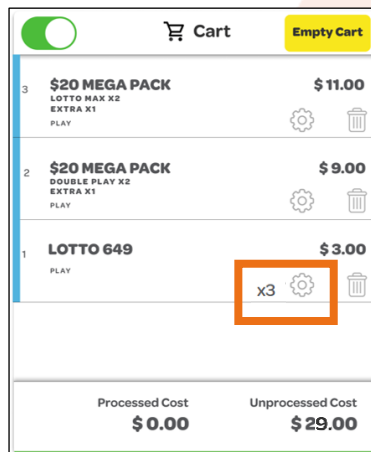

Three exceptions exist, and will always be unique on each Ticket:

- the Extra,
- the Lotto 6/49 Gold Ball and,
- Lotto Max lines 2 and 3 of play

Gear Icon for Quick Pick Packages allows the Player to select Multiple Draws (1-26) with lines of play identical, and/or additional Extras (1-10).

### I used the Gear Icon for Lotto Games to change the number of Tickets in the Cart. There is only one line in the cart instead of a line for each Ticket, is this right?

Yes, this is correct. When increasing the Number of Ticket by using the Gear Icon, it will show the **Number of Tickets** on the line item (picture below).
