## Questions & Answers

### How do I correct the purchase so players can purchase a certain number of advance draws of Lotto 6/49 or packages containing Lotto 6/49?

You can select the buttons that are remaining on the screen which indicates the number of advance draws still available for purchase.

If the wager is rejected by the system, you must determine the maximum number of draws remaining and select that number of draws (or any number less than that number). The table on page 3 of this RIS may be referenced for the number of draws and dates remaining.

Example:

If you are in the week of June 23, 2022 and the roll down started 8 days ago (June 15, 2022), this means you will only be able to sell a maximum of 23 advance draws ( $26 - 3 = 23$ ) to the player for the Lotto 6/49 and any package containing Lotto 6/49.
